

Celebrate this Season with Candy from CandyRific
Sunday, October 12, 2008

This Halloween there is nothing like funky and fun candy from [CandyRific](#).

Crazy, Freaky Fingers shock and delight! The [Freaky Finger Pops](#) are a great treat for any child. Just stick the creepy finger on and suck away. After the sucker is gone it can be replaced with another sucker, or used for great creepy play. The suckers are all great flavors and are Chuba Chups suckers.

The [Trick or Treat Light Up Candy Pop](#) look cool, with their orange lights on Halloween night! They are fun to play with and the adorable characters are sure to please any child. Kai was able to test this one herself and she loves it. The lights change as they spin around so it's quite fun for children of any age. The sucker also tastes great.

The [M&M Halloween Candy Fan](#) is also another great treat for children. It opens at the bottom and is filled with yummy M7M candy. The fun and funky M7M characters are all decked out in Halloween costumes.

[CandyRific](#) has tons of great candy for kids, and we've actually been able to purchase these at our local Rite Aid store. Although you can find them at most stores, and they are great for parties or special treats. You could even be the "one good neighbor" and give them out to

Trick-Or-Treaters.

Head on over to [Sister Sister](#) where you can win some of your own!
